"The Crime of the Century"

BURIAL OF MRS. MCKENZIE TAKES PLACE AT PINCHER CREEK

Pincher Creek, Sept. 3.—Many friends gathered at the United church on Thursday afternoon to pay a last tribute to the late Mrs. McKenzie, Pincher Creek's oldest citizen and one who was respected and loved by all. Rev. N. W. Whitmore struck the note of "Victory" as he preached the funeral sermon of one who had faithfully lived and peacefully died. A. B. Murdoch sang "English Land," and old hymns were sung. Mrs. A. L. Freebairn officiating at the organ. The body was laid to rest in Fairview cemetery. The pall-bearers were W. A. Fraser, T. Craig, A. Dempster, S. P. Hunter, R. Henderson and R. O. Allison.

Born in 1839 at Paisley, Scotland, Miss Margaret Henderson McKenziel moved to Detroit in 1858, taking three months to cross the Atlantic in a sailing vessel. After her marriage in 1867 to Wm. McKenzie the couple went to Essex county, Ont., where the children were born and where they resided until July, 1893, when they came to Pincher Creek and settled on the land one and a half miles from town, which the son Albert now owns and where the pioneer lady died. Mrs. McKenzie was predeceased by her husband in 1895.

BLAIRMORE DEFEATED BY MICHEL

NATAL, B.C., Sept. 5.—Before a fair crowd the Michel eleven defeated Blairmore 2 to 1 in the semi-final football game for the Grand Central Cup played at Michel on Sunday, September 3rd. With Fernie defeating Corbin at Corbin on Wednesday, Michel plays Fernie at Fernie in the final for the Grand Central Cup to be played for either on Saturday or Sunday, September 9th or 10th. Michel, playing minus five of their outstanding players opened up the first half, after losing the toss, against a stiff breeze. Although having numerous chances to score Michel could not penetrate the Blairmore goal. With about ten minutes to go Blairmore scored from a free kick which was headed into the Michel goal by one of their own players, ending the first half 1-0 in favor of Blairmore.

Michel to gain into the final Michel was emphatically rewarded with their first goal, after T. Vejprava, the Blairmore right winger was chased off the field by the referee for using abusive language. In a scrimmage in front of the Blairmore goal, A. Turlick scored while the goalkeeper and two Michel players were on the ground inside the nets. Blairmore disputed this goal and walked off the field, but after a little discussion came on to finish the game much to the approval of the Michel and Natal football fans. With about ten minutes to go, A. Turlick scored the second goal to turn the tide for Michel from a toss to a win, ending the game. The goal-getters were: For Michel, A. Turlick 2, while for Blairmore Womersley scored Blairmore's odd goal.

Michel—Goal, O. Saunders; full-backs, O. Travis and D. Martin; half-backs, F. Keeling, J. Gaskell, B. Mitchell; forwards, F. Brown, P. Gaskell, A. Turlick, G. Travis, P. Chala. Blairmore—Goal, Dufield; full-backs, Oliver and Burrell; half-backs, Womersley, Duncan, Morris; forwards, Vejprava, Gray, Gardiner, Blas, Kemp.

T. Gausfield, of Coal Creek refereed the game and checked up the game in great style.

In a wrestling contest at Nanton last week, Frank Pilling, of Cardston, was unable to pin Mike Bilinsky's shoulders to the floor. Mike secured one fall against Pilling.

BELLEVUE LABOR DAY FIELD AND TRACK SPORTS, 1933

The annual flower show and sports at Bellevue on Labor Day were by far the most successful in the association's history. All parking space in Bellevue was occupied by cars, mostly visiting, and the attendance, both at the big exhibition in the arena, and the sports on the athletic grounds exceeded all expectations. People were noticed present from practically all parts of Alberta and British Columbia, while a number of tourists passing west from Manitoba and Saskatchewan stopped over to view the exhibition. The number of entries in the various departments of the exhibition were slightly in excess of last year, while a marked interest was manifested in the field sports.

The results of the sports events are given here, while the prize awards for the exhibition will be published at a later date.

Below are prize winners in field events:

Event No. 1.—Football, B. Bellevue (2) vs. Blairmore (1). 2.—Football, Hillcrest (3) vs. Coleman (0). 3.—Old Men's race (50 years and over), W. Mitchell (79), 1st; Grandra Goodwin (78), 2nd; G. W. Goodwin (58), 3rd. 4.—One-Mile open, John Kerr first, B. Phillips second, J. Mottie third. 5.—Girls under 14, 75 yards, Jennie McLean first, J. McDonald second, L. Litherland third. 6.—Boys under 14, 75 yards, A. Rhodes first, J. Carney second, L. Rhodes third. 7.—Ladies' Running Broad Jump, D. Cassick first, 15 ft. 10 in.; B. McInnes second, F. Cassick, third. 8.—Men's High Jump, G. W. Sutherland first, 5 ft. 5 in.; B. Goodwin second, 5 ft. 5 in.; S. Goodwin third. 9.—Girls under 16, High Jump, D. Cassick, 4 ft. 4 in.; B. McInnes, J. McDonald third. 10.—Boys under 16, High Jump, A. Cassick first, 5 ft.; F. Radford, G. Bamforth third. 11.—Girls under 19, High Jump, D. Cassick, 4 ft. 5 in.; B. McInnes second, K. McDonald third. 12.—Boys under 19, High Jump, L. Fournier first, 5 ft. 2 in.; A. Anderson second, J. Mottie third. 13.—Hop, Step, and Jump, G. Sutherland first, 43 ft. 10 in.; W. McLean second, 41 ft. 1 in.; R. Cruickshank third. 14.—Boys under 19, 90 yard sprint, A. Anderson first, S. Radford second, J. Ulrich third. 15.—Girls under 19, 90 yard sprint, D. Cassick first, F. Cassick second, E. Belopotosky third. 16.—Half-Mile open, John Kerr first, R. Cruickshank second, S. Richards third. 17.—Ladies Baseball Throw open, F. Cassick first, K. Cassick second, D. Cassick third. 18.—Boys under 19, Running Broad Jump, W. McLean first, 19 ft. 9 in.; L. Fournier second, A. Anderson third. 19.—Girls under 16, 90 yard sprint, D. Cassick first, B. McInnes second, E. Belopotosky third. 20.—Boys under 16, 90 yard sprint, J. Ulrich first, F. Radford second, J. Petrokko third. 21.—Ladies open, not run. 22.—Pole Vault, open, G. Sutherland first, 10 ft. 4 in.; R. Cruickshank second, 10 ft. 3 in.; J. Brazzoni third, 10 ft. 3 in. 23.—Football final, Bellevue (3) vs. Hillcrest (2). 24.—Exhibition by G. Sutherland, Javelin Throw, 165 ft. 3 in.; Discus Throw, 131 ft. 4 in.; Hammer Throw, 157 ft. 2 in.

The throws as exhibited by George Sutherland were highly appreciated by the large crowd witnessing the sports. The committee in charge of the sports hope that sufficient interest has been aroused in the Pass for them to include throwing events in next years Labor Day sports.

A grand dance at the Oddfellows' hall at night concluded the programme.

Mr. and Mrs. J. R. Gresham passed through Blairmore yesterday, enroute to Okotoks. Mr. Gresham has been doing relieving work at different customs depots in British Columbia.

COLE'S THE-MODERN-THEATRE-BELLEVUE

Changing Civilization, The State, And The School

Prevailing economic conditions throughout the world have had a direct and calamitous effect on Canada, and particularly on the entire western half of the Dominion which has to depend so largely upon world markets for the profitable disposal of its products. The situation thus created was bad enough for the people to be called upon to face, but, unfortunately, it was intensified throughout very large areas by successive years of drought and insect pests resulting in almost if not quite complete crop failure. Many people would have been able to fairly well contend against one of these adverse conditions, but were swamped by a combination of the two.

The result has, of necessity, been not only a loss of income and livelihood to thousands of individuals,—because the losses in the agricultural world has brought unemployment and loss in the industrial world,—but it has thrown a very heavy burden on all governments, while at the same time greatly reducing their revenues wherewith to meet that burden. People without incomes cannot, of course, pay taxes. Public services have had to be cut, and various economies enforced.

Canada, as a nation, and the Western Provinces in particular, have always been generous in making provision for the education of the youth of the land. They have been proud of their educational systems. They have never been backward in giving wholehearted support to the improvement of education for their children and increasing the means of obtaining it by all. As a result, expenditures for education have been heavy, and school taxes high.

Owing to the necessity of cutting public expenditures in these times, some people have advocated a slashing of expenditures on education, involving drastic curtailments in the school facilities provided, and limiting the educational opportunities of the present generation. Serious reductions have already taken place, and in particular, teachers' salaries in rural schools have been reduced to a point where it is difficult for them to carry on. Nevertheless some short-sighted, panic-stricken people still clamor for still greater "savings" at the expense of the education of the children of today. To all such we would recommend a careful consideration of the following article contributed to the *Victoria, B.C., Times*, inasmuch as the application of the truths contained therein are by no means confined to the Province and people of British Columbia:

With economic conditions as they are, we hear on all sides the most fantastic suggestions about closing the schools, doing away with high school education after the age of 14, save for those who can afford to pay fees, about elimination of school services that make for education efficiency, about merciless slashing of teachers' salaries.

"Teach 'em till they are fourteen," said a man of reputed mental brilliance to me the other day. "Teach 'em till they are fourteen, then let them go,—unless their parents can afford to pay for them to go in for higher education."

"Let them go." But where? In Vancouver alone 40,000 children are attending school. What if 4,000, 5,000 of them were turned out of the schools? Were not able to go back this year? And probably as many more throughout the province?

Twenty years ago such children might have been absorbed in unconsidered labor of some kind, in apprenticeship, in farm work (though not in British Columbia this last).

What is there for them to do now? What?

And as every mother, every teacher knows, fourteen is a dangerous age. Britain has been through a petty bad time these last ten years, but she has not cut her school services. As a matter of fact she has increased them. She knows she had to.

It seems to me if any of these drastic curtailments suggested by reactionaries are done save in tentative moderation and as temporary expedients, a Dark Age will set in.

Of course, the highest work in the intellectual world always seems to be beyond the range of intelligence of the majority of people. A nation's rank in the world may be estimated as high or low by the amount it allows itself for the higher kinds of work. That is for its teachers, its clergy, its inventors, its social service workers, its creators of all kinds of art. Take the nations and see how they measure up in your estimation to this axiom.

If a nation wants able men and women to deal with and teach its children, it must pay for ability.

A mean demand will meet with a mean supply.

And the nation in the long run will be the loser.

Canada cannot afford to lose in this matter of education. Children of this changing civilization,—for changing it is and very rapidly in form and ideas,—cannot afford to lose. We, the adults of this generation, have no right to steal from the future generation anything in the matter of educational opportunities or wisdom.

"Young Canada we stand on guard for thee" was the apt and intentional misquotation used by Dean D. Buckman in his address to the British Columbia Teachers' Federation, in convention. It tersely sums up the attitude of teachers and parents during this time of economic stress.

Holding of "air circuses" on Sunday is being fought in England. American cosmetics are now in demand in North Manchuria.

Automobile sales in Japan are increasing. Exports of cotton from Egypt this year are much greater than in 1912.

Weakening Diarrhoea Dangerous Dysentery

Diarrhoea and Dysentery do not need to run for any length of time until the whole system is weakened and debilitated. Few other diseases so quickly undermine the strength and bring about a condition of prostration as these.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effective in checking the looseness of the bowels, but at the same time it strengthens, stimulates and braces up the system.

Never be without a bottle of Dr. Fowler's. Always be prepared in case of emergency.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Free-Handedness Of Patrons Means Terrible Loss To Railways and Hotels

How many towels are, let us say, appropriated by railway passengers? The figures for England, taken as staggering, an English railway detective being authority for the statement that 25,000 towels were taken from the trains of one system last month. He says also that the thefts of cups, spoons, window straps and glasses cause a loss to British railway companies of thousands of pounds a year. Most of these disappearances occur in the summer holiday season. Hotels and restaurants, on the other hand, sustain their heaviest losses at Christmas, when glasses, jugs, ashtrays, cutlery and linen valued by wholesale. According to an English hotelkeeper, this practice of picking up useful or fancy little articles is more frequent among well-to-do people than among the less fortunate. There is an aspect of this interesting custom which is not often thought of, and that is the necessity of not offending a good customer when mischance has revealed his free-handedness with mine host's property. Some years ago a valued guest, having paid her bill, was making her way to the door of the hotel when one of the hotel's spoons clattered to the floor. An attendant promptly picked it up and hastened after her, with the obvious intention of handing it to her as if it had been her own, but his well-meant effort to save the lady's face was followed by an acceleration in her speed which almost tumbled it into flight. The attendant's fears were realized. She never stayed at that hotel again.—*New York Evening Post*.

Doing Good Business With Other Countries

Japan Rapidly Forging Ahead Opinion Of British Shipowners

"The thing that impressed most on my five months' tour of the world was the way Japan is forging ahead in her business with other countries, and the way she is leaving us far behind," stated R. C. Dalgleish, British shipowner of Newcastle-on-Tyne, who reached Victoria recently from Australia. He spent several days at Vancouver before crossing the continent en route to England to complete a trip around the world. Japan has reached Great Britain and the United States flat. Mr. Dalgleish declared, "and the sooner we wake up to that fact the better for all of us. Our costs are too high, and the sooner we get rid of tariffs, subsidies, restrictions and quotas the better."

Can Do Seventy Miles

Manitoba Police Using Midget Car For Highway Patrol Work

Two six-foot Manitoba patrolmen arrived at Calgary on business, driving a motor car which makes a Baby Austin look big in comparison.

The midget auto was imported from England for highway patrol work. The two men sat tiny cars and big cops form an ideal combination for the job.

Both men are employed by the Manitoba Motor League Safety Patrol, and have authority to pay information and make arrests in connection with infractions of the Motor Vehicle Act of that province.

They stated that their little car can make 70 miles an hour, even on gravel highways.

Fingerprints Are Valuable

Worth Far More Than Photographs In Many Cases

Fingerprints as well as photographs should have their place in the family album. Police Commissioner Austin Roche, Buffalo, N.Y., told the annual convention of the international association of chiefs of police at Chicago.

"These prints," said Roche, "would be of great value in cases of missing persons or kidnapping. They would be worth far more than photographs in many cases."

Roche suggested the fingerprints be taken of a person as a child, thus assuring him his identity would be preserved as long as he retained his hands.

Paying Fourth Visit

The Graf Zeppelin will pay its fourth visit to the United States in October. Postmaster-General Farley announces. Plans for the flight to the Chicago Exposition, by way of South America, Mr. Farley said, will include the issue of a special stamp to be put on letters carried by the German dirigible.

Nearly 2,500,000 people buy one or more of the 65 radio publications in Germany every week.

Has The Right Idea

Prefect Of Paris Police Would Control Blowing Of Auto Horn

Jean Chiappe, Prefect of the Paris Police, has prescribed a trumpet of low pitch and single note for Parisian automobiles and has proscribed all other instruments of noise, according to a letter he recently wrote O. C. Cabot, an official of La Societe pour la Suppression du Bruit.

Mr. Cabot had written the Prefect as follows: "Experience has demonstrated that horn-blowing is rarely, if ever, necessary at all in the city and that mechanical and loud horns should be totally suppressed. Any motorist who attempts to create an intersecting thoroughfare at full speed, relying solely upon his horn, risks a serious accident. If he slackens his pace and looks to right and left, surely the horn is superfluous. We are convinced that, since there is a limit to the loud blast from an unseen vehicle is heard by the driver of a given vehicle, it is quite impossible for the latter to decide when which direction the warning has come. Yet 60 offending citizens have had their hearing outraged and their nerves lacerated for nothing."

"The usual reason given for sounding the horn is the wish to pass an other car. But when the car in front slows down, it is usually at a sufficiently high speed this racing propensity should be sternly discouraged in town streets, as a large percentage of accidents is due to this practice."—*New York Times*.

Won Honors At Oxford

Blind Girl Used Text Books Transcribed Into Braille

Miss Hazel Winter, a blind Oxford under-graduate, has gained first-class honors in the final honor school of modern history. At the age of 17, while still a pupil at Chorleywood College, the public school run by the National Institute for the Blind, she won an open scholarship at Lady Margaret Hall, Oxford. As she is unable to read ordinary printed matter all the text-books required in her work at the university have been transcribed into Braille for her by volunteers attached to the National Institute for the Blind.

Miss Winter, who was born blind, is a daughter of the late Colonel C. B. Winter, D.S.O. After a short holiday on the Continent she intends to take up historical work in conjunction with coaching. Her ambition is to obtain a lectureship in history. Miss Winter's only recreation at Oxford was swimming.

Nova Scotia's New Premier

Is Not First Roman Catholic To Head Province

Angus L. Macdonald will not be the first Roman Catholic Premier of Nova Scotia, as stated in some newspapers. They have overlooked J. S. D. Thompson (later Sir John), who was Premier and Attorney-General in 1882. There may have been others, but Sir John's eminence as a statesman should have recalled the name.

The first Premier of Ontario was a Roman Catholic, John Sandfield Macdonald, possibly of the same clan as the new arrival in Nova Scotia.—*Toronto Mail and Empire*.

Honesty is the best in the long run. But, on the other hand, if you are honest you do not have to run.

Argentine cable companies are boosting rates.

SOURED ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile —No Calomel necessary

Many people who feel sour, sluggish and generally unwell make the mistake of taking calomel. This medicine is a powerful purgative and while it may give you a momentary feeling of relief, it does not cure the trouble. It is a waste of time and money to take it. The only way to get your liver into good shape is to take a course of Dr. Williams' Pink Pills. It will give you a new feeling of vitality, health, cheerfulness and a new outlook on life. It is a sure cure for all liver troubles.

Established New Record

French Artist Crossed Atlantic Alone In Six-Foot Sloop

Claiming a record for a one man crossing of the Atlantic under sail, Martin-Marie, French seascape painter, whose real name is Durand Coupa, arrived at New York August 24, aboard the thirty-six-foot sloop "Winnibell II," which he navigated single-handed from Brest.

Coming by way of Madeira, Dominica, and Port of Franco, Martin-Marie has covered 2,850 miles since May 10. The famous Captain Blouin, in the equally famous "Spray," set the previous record mark, with a crossing from Cape Sable to Lisbon in twenty-eight days.

Marie took twenty-nine, but in that time he covered 250 miles more than the earliest mariner.

The "Winnibell" was launched at Boulogne in February, and it has several devices permitting navigation by a one-man crew. The sloop can be steered from the cabin. All the hallways run aft through leading blocks. A cover can be placed over the cockpit, and the "Winnibell" completely closed up, with her pilot inside.

Marie's purpose was to gather material for his seascapes. During the voyage to Martinique, he said, he took over the tiller only thirty-seven hours. For twenty-seven days he did not touch the helm. En route from Martinique to New York, he steered only three days. When the boat was at the helm, he could go below and sleep for hours or loil on deck in good weather as much as he pleased, content that his sloop was on its course.

Like Canadian West

Lord and Lady Macmillan Hope To Return For Longer Visit

Lady Macmillan, whose distinguished husband heads the Royal Commission on Banking in Canada, likes the Canadian West and hopes to return for a lengthier visit soon. "We've been to Canada four times, but we've only just got a faint glimpse of the Rockies and the Prairies," she said. "Some day we hope to return for a real holiday and see some of the far away mountain trails that appeal to us so much."

In 1929, Lord and Lady Macmillan were in Saint John for the meeting of the Canadian Bar Association; in 1928, they visited Regina for the Bar convention when Lord Macmillan represented Britain at that gathering.

"The Macmillans hold a distinct appeal for Lady Macmillan, who is keenly interested in the Scottish people in Canada. "We are Scottish, you know, not English," she said.

While in Victoria, Lady Macmillan secured some flower seeds from the Butchart Gardens for their country estate in Surrey.

Veteran Engine Scrapped

Locomotive No. 2717 Only British Engine Captured By Germans

A battle-scarred British war veteran and ex-German prisoner of war, with a travel record of more than 1,200,000 miles, has just passed away.

This obsolete war locomotive, No. 2717, believed to have been the only British railway engine to have been captured by the Germans. It has just been withdrawn from service and broken up.

While in use on the British front at Cambrai in 1917, No. 2717 was captured by the enemy and for five months was used as a machine-gun post in "No Man's Land." Following the March retreat the Germans removed the engine, patched up the bullet and shrapnel holes and used her for railway service until she was recaptured by the British in 1918.

On return to home duties after the war the engine was decorated with a plate recording its war services.

A Guilty Conscience

Silverware Returned To Hotel When Purloiner Has Change Of Heart

Glennery, the hotel manager, at Murray Bay, Que., unwrapped a large package. And from the fold of brown paper appeared: Two demitasse cups and saucers (cardinal's pattern and the hotel's pride and joy); four demitasse spoons, one silver finger bowl, one butter knife and two tea towels.

The package was accompanied by a letter, saying the sender—formerly employed as a waitress—had joined the Oxford group movement and was returning articles stolen from the hotel.

Friend: "What make is your nephew's new car?"

Old Lady (rather vague about such things): "I think, my dear, I heard him say it was a 'wow'."

A "radium clock" is used to find the age of the earth. Erosion of the soil and salt is also an "hour-glass."

Financial Strength Of Britain

Deposits In One Bank Increased \$179,000,000 In Year

There is a striking indication of the financial strength of Britain in the matter of the saving of money by Britisheers, contained in the annual report of a leading bank, one of the Big Five. The deposits compared with last year show a clear gain of \$179,000,000.

The general prosperity of the institution was shown in the maintenance of three classes of dividends, one of 10 per cent, the others of 14 per cent each.

With total resources approximating two billions of dollars, there is summoned up a satisfactory money prospect of capacity to finance enterprises under a widening market, such as was hoped for by the action of the Economic Conference, that is most reassuring.

The increased savings on deposit tell the story of latent financial reserves in England. This is fortified by the statement of the large dividends earned, and paid.—*Winnipeg Tribune*.

Germany Wants Saar Basin

Willing To Offer France Concessions For Return Of Territory

"Germany is prepared to ask France to cede her the rich territory of the Saar Basin before 1935, in return for which Germany proposes to guarantee the protection of French interests in the Saar and to support an economic interregnum between the Saar and Alsace-Lorraine," said Dr. Carl Leitz, German industrialist and coal owner, in discussing Franco-German problems during an interview at Montreal.

"Under the terms of the Versailles Treaty," Dr. Leitz explained, "the Saar territory which is wholly German in population and outlook, is governed under mandate from the League of Nations and a plebiscite of the population will be taken in 1935 to determine whether at that date the land shall revert to Germany or continue under its French domination."

Television Tests From Crystal Palace Tower

Commanding Height Far Above Thames Mouth Place Ideal

Negotiations have just been completed to permit experimental television transmissions from the south tower of Crystal Palace.

The transmissions will be made for the first time, on ultra short waves tonight.

This tower is regarded as ideal because of its commanding height. It stands 550 feet above the Thames level.

Recently H. Thomas, the assistant organist of Crystal Palace, a wireless expert, carried out experiments from the north tower with his amateur transmitter (Qcqb), using a five-metre wave.

Reports of successful reception came from various parts of the country, some 200 miles away.

Queen Receives Degree

When the degree of Doctor of Music honor of the Royal College of Music was conferred upon the queen, her majesty received from the Prince of Wales a jewel and chain as a gift from the college, of which he is president.

The degree was conferred at Buckingham Palace by Sir Hugh Allen, director of the college, Lord Palmer, vice-president, and Charles Morley, honorary secretary.

The man who spanked Adolf Hitler is still alive in Austria. It seemed a useful idea at the time but nothing came of it.

Cloth ordered recently by an English railway for its employees totaled 256 miles.

LACK OF GRAIN AT CHURCHILL MAY END SEASON

Ottawa, Ont.—Churchill, three-year-old seaport of northern Manitoba, may end its shipping season ended long before the freeze-up, according to reliable information here. Seven ships loaded with grain have already sailed and two more, including the "Gardena," now en route to that port, are yet to load. This will clear out the 2,500,000 bushels stored in the elevator and it is stated only 6,000 bushels are en route to the port from inland points.

The understanding here is that no more ships have been chartered to proceed to Churchill and none will be until there is more grain in sight. Some attribute the shortage there to the general slowing up in export shipping, while others extend the suggestion that the rate cutting done by the Great Lakes has narrowed any advantage in shipping via Churchill, despite the lower rates this season between that port and the United Kingdom as compared with last year. With a shipper's market prevailing lake tonnage is being chartered at the lowest rates for some time, according to advice from Fort William recently. Lake freight rates to Montreal, which were as high as six cents a bushel last year, have dropped to from 2½ to 3 cents. The rates from the Head of the Lakes to Georgian Bay ports range from 1½ to 1½ cents as compared with 2 cents last year.

The rate to Buffalo is also lower, having dropped from 1½ cents last year to 1½ now.

Advice from shipping interests in Montreal are that the rates still remain lower from Churchill than from the Head of the Lakes to the United Kingdom and European ports so the new crop wheat that can reach Churchill more economically than Fort Arthur and Port William may revive the flow to the new port. However, no such revival is yet in sight. Strenuous efforts were made to lengthen the season Churchill might operate. This year the insurance companies responded somewhat to this pressure by extending the date when ships could leave the port without paying additional insurance.

On hulls and machinery, from September 30, the final date last year, to October 7. The port therefore has well over a month in which it can ship if the grain is available.

Wheat Crop Estimate

285,000,000 For Western Canada Is Forecast

Winnipeg, Man.—A wheat crop of 285,000,000 bushels in western Canada this year is estimated in the fourth crop report of the Weekly Market News compiled and edited by W. Sanford Evans, noted crop statistician, and issued here.

Estimates are based on reports from 337 crop correspondents in the prairie provinces combined with estimates of yields from 1,500 other points. Manitoba's wheat crop is set at 33,000,000 bushels, Saskatchewan at 130,000,000 bushels, and Alberta at 105,000,000 bushels, the figures being subject to revision.

Manitoba and Alberta crops maintained their prospects during August, but in Saskatchewan there was further deterioration, the report adds. The wheat crop is reported to be 73 per cent. cut and 24 per cent. threshed, with about 88 per cent. of the wheat crop now beyond further deterioration by frost, but grasshoppers are still present.

Yield of oats for the prairies is set at 20 bushels to the acre and barley at 16 bushels to the acre.

Train Goes Through Bridge

Five Downed And Many Missing In U.S. Michigan

Tucuman, N.M.—At least five persons were killed, 25 injured and many passengers were missing when the "Golden State Limited" crack Rock Island train, plunged through a bridge into a water-filled draw five miles west of Tucuman.

Seven coaches went into the water, along with the locomotive. The draw, ordinarily dry, was a raging torrent fed by heavy rains.

The "Golden State Limited" was eastbound from the Pacific coast.

Four Cases In West

Calgary, Alta.—Four new cases of infantile paralysis were reported to Calgary medical health department.

W. N. T. 1919

Deplores The Dole

Speaker At Calgary Contended That Relief Is Becoming A Racket
Calgary, Alta.—Unemployment relief in Canada is becoming little more than a racket, with both politicians and unemployed engaged in it, declared Rev. J. R. Craig, of Winnipeg, in addressing a service club. "The Canadian system is a racket, pure and simple," he said, "encouraging pauperization."

The nation owes no man a living, he contended, but it does owe him the opportunity to make a living. The plea for "easy money" is based on false understanding, and easy money has ruined the western farmer, Mr. Craig declared. The speaker asserted the Canadian Goodwill Industries of Winnipeg had started with nothing but donations of used clothing, furniture, and other articles and the voluntary work of a few men and women, had grown to an institution paying \$15,000 in wages annually and providing employment for 100 to 150 persons.

Casualties collected, repaired, and sold for wages. Though he did not hold it to be a permanent unemployment relief measure, yet he believed such schemes whereby a man was given a tool in his hand rather than a coin in his hand, were immeasurably of greater value.

The state was being called on to do what the individual should be doing, or the community, he added. The modern church had almost reached the limit of its helpfulness, for the state's social service activities were left to the pastors.

Experiment Of United States Being Watched

Countries Interested In Stabilization Of Currency Through N.R.A.

Operating the United States can stabilize its dollar through the operation of the N.R.A., stabilization of currencies by three or perhaps four other great nations will follow, and thereafter will come stabilization of the currencies of the rest of the world. This, in brief, was one conclusion reached at the conference of the Institute of Pacific Relations just ended.

Meanwhile, other countries are closely watching the progress of the N.R.A. application, and the importance of the experiment, having regard to the social and economic welfare of the people of the world, cannot be overestimated, it was agreed.

Currency stabilization is linked with trade stabilization and with solutions of the problems of population pressure, so insistent in Japan and China; of trade conflicts, as, for instance, the bitter rivalry between Lancashire and Japanese textile spinners, and of disturbed relations between countries. The dispute of China and Japan over Manchuria was given as an example.

Ontario's Relief Bill

Estimated Total Of \$30,000,000 To End Of Fiscal Year

Toronto, Ont.—At the end of Ontario's fiscal year, it is estimated a total of \$30,000,000 will have been expended within the province on relief by the province, Dominion and municipalities. Of this sum the provincial exchequer will have provided about \$13,750,000, the Dominion about \$8,500,000 and the municipalities about \$6,750,000.

From the first of 1930 to the end of July this year, the total bill was \$77,800,000, of which the province has contributed \$27,800,000, the Dominion \$23,100,000 and the municipalities \$26,900,000.

Brandon Aviator Injured

Accident Occurred When Propeller Of Monoplane Broke

Brandon, Man.—Crashing to the ground when the propeller of his monoplane broke, Alvin Kennedy, instructor for the Brandon Aero Club, escaped serious injury, but was detained at the Brandon General Hospital, where minor injuries were attended to.

The machine had been built locally and was owned by Gordon Brown. It had been taken up as high as 1,000 feet a few days ago, and, as the pilot put it, "behaved well."

Conquers English Channel

Dover, England.—The English Channel was conquered for the first time this year when Miss Sunny Lowry, 22-year-old Manchester girl, arrived at South Foreland after swimming from Cape Gris Nez.

France, in about 15½ hours. She had made two attempts before succeeding in becoming the 15th swimmer and the eighth woman to swim the treacherous strip of water.

Conciliation Board

Will Hear Wage Disputes Of Railway Employees

Ottawa, Ont.—Hon. W. A. Gordon, Minister of Labor, announced he had appointed two boards of conciliation to hear wage disputes between the Canadian National and Canadian Pacific Railways and their employees.

The first board will inquire into a dispute between the Canadian Pacific Railway and its clerks, freight handlers and station employees, numbering about 3,000. George S. Currie, Montreal, and W. F. O'Connor, Toronto, will be two members of the board, representing the company and the men. They will select a third member who will be chairman.

The second board will investigate two wage disputes between the Canadian National Railways and its men. The first dispute involves 4,300 men, clerks, freight handlers, laborers and employees of the ferry service between Tomentine, N.B., and Borden, P.E.I., and wharf employees at Halifax. The second dispute involves 447 employees, clerks of the railway's headquarters at Montreal. Two members of the board will be F. C. Dobell, Montreal, representing the company, and Rev. Russell McGillivray, Ottawa, representing the men. They will choose a chairman.

U. S. EMBARGO ON GOLD EXPORTS IS WITHDRAWN

Hyde Park, N.Y.—Acting with dramatic suddenness, President Roosevelt relaxed the United States gold embargo to permit sales of the newly-mined metal in foreign markets, where prices are higher.

At the same time the president tightened the prevailing restrictions against hoarding by requiring all persons holding gold coin, gold bullion or gold certificates in excess of \$100 to file statements of their holdings within 15 days.

After 30 days all private gold holdings of more than \$100 will be prohibited unless valid reasons are shown why the metal cannot be replaced by currency.

The decree would appear to nullify the recently authorized plan permitting American producers to export concentrates and amalgams to Canada or other countries for refining and export. Leading United States producing mines had applied to Canadian authorities for refining of their gold ore, but the order relieves United States producers of the necessity and expense of exporting for refining and round-about marketing.

Treasury officials interpreted his order as meaning that newly-mined gold could be sold in the world market at prevailing prices of around \$35 an ounce as contrasted with the fixed price of \$20.67 paid by the mint.

Gold mining shares immediately shot upward on the New York stock exchange, one issue advancing more than \$15 to a record high.

Treasury department officials forecast a quickening of activity in the gold mines of the west with profits increasing by more than \$15,000,000 a year, as the president reopened the export trade to American miners. The presidential decree is effective immediately.

NOVA SCOTIA'S NEW PREMIER

Angus L. MacDonald, 43-year-old member of Inverness County, leader of the Liberal Party in Nova Scotia, which secured 21 out of the 30 seats, defeating the government of Hon. G. S. Harrington. The premier-elect has not hitherto had a seat in the House.

Americans In Danger

Request For Warship To Protect Priests At Foochow, China

Washington.—The State department reports that commander-in-chief of the Asiatic fleet has been requested to send a naval vessel to Foochow, China, where three Americans were reported to be in the danger zone of operations of Communist forces.

The request for a warship was made by the American Minister at Peking. The department said the purpose of the vessel was "to be available for the protection of Americans in the event of an emergency." Two warships, the Tulsa and the Sacramento, are within short steaming time from Foochow, the former at Swatow and the latter at Hong Kong.

The three Americans reported in the danger zone were Father Paul Curran, Father Bernard C. Werner, and Father John H. I. Werner.

Junior Trade Commissioners

Two Western Candidates Qualify For Appointment

Ottawa, Ont.—Robert A. Cameron, Edmonton, and Christopher H. West, Cranbrook, B.C., were among the six high ranking candidates for posts as junior trade commissioners, the civil service commission announced. They probably will receive appointments shortly.

J. M. Boyer, Hartland, N.B.; Greig B. Smith, Ottawa; G. Nairn, Montreal, and Leland Ausman, Toronto, were the others in the first half dozen trying examinations.

More than 400 candidates wrote on the examinations after which oral examinations were given to 87 who stood highest, the examiners traveling across Canada for the purpose. The six candidates will be named junior trade commissioners; it is expected.

Believe Driver Was Asleep
Lethbridge, Alta. Automobile accident which caused the deaths near Macleod, Alta., of Constable Joseph Farrell and Sgt. J. Blockidge, both of Lethbridge police force, resulted when Farrell fell asleep at the wheel in the opinion of the coroner's jury empaneled here.

AS ROME WELCOMED BALBO

Here is the triumphant procession with which the Eternal City welcomed General Ialo Balbo and his men on their return from the epic sea flight to Chicago and back. The parade is shown coming through the historic Constantinian Arch on the way to Palazzo Hill, where the fliers were received and decorated by Premier Mussolini. At top, Il Duce is shown decorating Balbo.

Search For Old Forts

Expedition To North To Unfold Glorious History Of Early Days

Prince Albert.—A unique expedition left here recently when Professor H. A. Innis, of the University of Toronto, and J. B. Tyrrell, Toronto, president of the Kirkland Lake Mining Company, set off in an outboard motorized freight canoe with two guides to search for locations of old forts on the North Saskatchewan and Saskatchewan rivers east of here.

One of the objects of the expedition will be to relocate the remains of Fort a La Corne, originally established in 1748 by La Verandrye and first named Fort St. Louis. Some doubt has arisen as to the exact location of this fort and those on the novel expedition will attempt to remove these doubts. This is one of the oldest forts known in the history of the west and about it and the other forts in this part of the province is written the glorious history of the early fur trading days when the flowing streams in this part of the province were the main arteries of travel. The two will spend a week in their quest.

Dawson Has No Unemployed

Recent Activity In New Gold Fields Has Absorbed Labor

Victoria, B.C.—Dawson, in the Yukon, is one city in Canada that can report an absence of unemployment, according to G. A. Yardley, customs inspector, who has returned from an annual inspection tour of the Yukon. All labor in Dawson has been absorbed by recent activity in new gold fields, Mr. Yardley stated, and he predicted another boom in the Yukon country.

Freight imported into the country this year was 400 tons greater than 1932 figures, which in turn were 500 tons greater than those of 1931.

He predicted that output of gold from the Yukon this year would be between \$350,000 and \$400,000 greater than last year.

CENTRAL BANK PLAN IS OPPOSED IN THE EAST

Halifax, N.S.—Creation of a central bank, widely advocated before the royal commission on banking in western Canada, did not receive support from the Halifax Board of Trade when that body made representations to the commission here.

It was the initial sitting which Lord Macmillan and his four colleagues have held in the Maritime provinces.

The brief of the board of trade was presented by A. B. Wiswell, vice-president of that body, it concluded by the board. The board requested that the commission be permitted to carry on as in the past, subject to such amendments of existing legislation as the commission might consider advisable. The board of trade expressed the view that "the federal government at Ottawa, by keeping in touch with the Canadian Bankers' Association, or heads of the larger banks, is quite capable of providing for the financing of the country, the movement of the crops and to meet any emergency which may arise from time to time."

The Canadian banks had come through the years of "stress and depression" with credit to themselves and "with the commendation of other countries where serious banking conditions had prevailed," the board of trade asserted. It expressed the view that the expense connected with establishing a central bank would outweigh the benefits to be derived from its creation.

Lord Macmillan interjected that a central bank would not necessarily be a very costly affair. The control of credit and the issuance of currency were functions usually associated with a central bank, he said.

Under present conditions, for instance, there was some room for criticism because the control of the note issues was in the hands of a political body. Dominion notes were issued by the government after the deposit of certain securities by the banks.

Miners, fishermen, agriculturists and lumbermen in eastern Canada were also having a hard time, Mr. Wiswell reminded the commission in referring to western representations on behalf of the wheat farmer.

This view was heartily concurred in by A. H. Whitman, who took up the situation from the point of the dry fish industry.

"As far as I can judge there is no demand or desire for a central bank or for any drastic changes in the Bank Act," Mr. Whitman said. He had never been refused adequate credit for his requirements by the banks.

WHEAT PACT TO REHABILITATE GRAIN INDUSTRY

London, Eng.—Argentina's signature to the international wheat agreement put the finishing touch to a pact which, the negotiators assert, will rehabilitate the wheat industry and thereby do more toward restoring world prosperity than could any other single factor.

Wheat experts here assert that unless the world's impoverished wheat farmer is put on his feet there can be no universal prosperity. Argentina became the 22nd nation to sign the pact, the general purpose of which is to reduce production by the great wheat nations and stimulate consumption in the importing countries. The other principal nations signed on August 25th.

The next move is for the governments to appoint their members of the permanent advisory wheat committee, which presumably will have headquarters in London and will guide the working out of the agreement.

Washington.—Secretary Henry Wallace stated that the international wheat agreement finally approved at London, Eng., will limit exports of Canada to 200,000,000 bushels; of the United States to 47,000,000 bushels; Argentina to 110,000,000 bushels, and Australia to 105,000,000, up to July 31, 1934.

B.C. Voting November 2

Proclamation Announces Date Of Provincial Election

Victoria, B.C.—Voters of British Columbia will go to the polls, Thursday, November 2, to elect the provincial 18th legislature. Official proclamation announcing the date of the provincial general election was signed by Lieut.-Governor J. W. Fordham Johnson. Nominations will be made October 12.

British Columbia's legislature was dissolved August 1, after running its full course of five years. With dissolution the 1932 Redistribution act came into effect, reducing representation in the legislature by one seat to 47, changing the boundaries of many ridings and adding a new seat in Peace River.

In the last election, July 18, 1928, the Conservatives, headed by Hon. S. F. Tolmie, were returned, electing 36 members to 11 Liberals and one Independent Liberal.

Early this year Premier Tolmie failed in his efforts to form a coalition ministry with the Liberals, headed by Hon. J. Pattullo and W. J. Bowser, leader of a non-party group.

At least eight different parties have entered this year's election and have already nominated a total of 114 candidates. This number will be greatly increased by the time polling day comes around.

Raps National Recovery Act

Nebraska Man Describes New Movement As "Pure Bunk"

Lincoln, Neb.—John H. Simpson, president of the National Farmers' Union, said he didn't blame individual farmers for taking all the government would give under the United States crop reduction plans, but added:

"It is against the laws of God and nature to plow up cotton, destroy things that could be used for food, and limit production."

The N.R.A., Simpson asserted, is "bunk, pure bunk to keep the suckers' minds off the real thing and is invented by Morgan and Mellon and others."

Passengers Got Thrill

Sky-Riders Stalled Between Towers For Over An Hour

Chicago.—Several passengers on the sky ride at the world's fair had a thrill when three cars were forced to halt in mid-trip by a broken telephone wire that fell across the cable supporting the cars. Hanging 210 feet above the lagoon across which the ride takes passengers between 630-foot towers, the passengers remained calm and surveyed the fair grounds for more than an hour while workmen in tiny chairs that ran out on the cables fixed the wire.

Serious Feed Shortage

Toronto, Ont.—Feed shortage in Essex county, announced the Ontario Department of Agriculture, has left the cattle and hog-raising industry in the southern county in a serious condition. Probably 10,000 head of livestock, including cattle and hogs, will have to be sold at a sacrifice on account of feed shortage.

Legal notices, 15c per line for first insertion; 12c per line for each subsequent insertion. Display advertising rates on application.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Sept. 7, 1933

LET US BUILD MORE SLOWLY

Edward W. Beatty, president of the Canadian Pacific Railway, intimated that the time is approaching when immigration into Canada on a reasonable scale can be resumed. If there is anything more likely to make a Western farmer see "red" it is that statement. Farm products have been produced in such profusion that they have simply swamped all markets and movements towards cutting down production have got under way. And here comes a gentleman who says "bring in more farmers."

The trouble with this country is that we have always been in such a furious hurry to do things. We have settled the land up too fast, built cities too fast, built railways too fast—all for the greed of money. We have ruined the lives of thousands by our haste and short-sightedness. We have chased round in circles in a restless anxiety to get "bigger and bigger." Let us be done with that.

The people now in Canada must be considered before any further waves of immigration are encouraged. We must first be sure that the people we have here can earn a decent living before we rush any more onto our farms or into our factories. Things should be planned carefully in the future and the "hit-or-miss" system of settlement abandoned. We should proceed slowly and give up our idea of haste.

There is a great deal of land in Canada yet to be settled, but we should not be in any rush to place people on it. Sons and daughters of the present generation should be considered. Places should be reserved as a home and an outlet for their activities. Don't let us ever again be stampeded into inviting the world to our country. Let us be sensible and slow.—Hanna Herald.

C. F. HARRIS KEYS

RE-INSTATEMENT

Appearing before Mr. Justice Tweedie at Lethbridge, C. F. Harris was given permission to prosecute his action against the Alberta Law Society for damages for being struck off the rolls and for re-instatement as a practising lawyer. The action was originally started by Mr. Harris five years ago, but, owing to unavoidable circumstances, he was unable to proceed with it. According to the regulation, such action lapses unless proceeded with in a year. To renew the action after the period necessitates the permission of a judge of the supreme court. This has now been granted Mr. Harris.

TWENTY YEARS AGO

A pair of Hungarian partridge has been seen on the outskirts of Pincher Creek several times this summer by different people, says the Pincher Creek Echo. Birds of this species were imported and turned out near Calgary a few years ago and are increasing rapidly. They are strictly protected by law and anyone killing a specimen is liable to be punished. While they are similar to prairie chicken in habit, they are a little smaller in size and get away much more quickly when flushed, making a curious wing noise which cannot be mistaken when once known.

A flock of 52 pigeons, belonging to J. G. Whitehead, secretary of the Drumheller district pigeon club, released from Kindersley, Saskatchewan, on August 19th, have failed to arrive home. It is believed that the entire flock was beaten down by hail.

Local and General Items

The E. P. Ranch is now included in the Macleod electoral riding.

Mrs. Vaughn is expected to return home from Coleman hospital this week end.

John Harmer and Jack Wilson, of Calgary, were holiday visitors with the former's parents here over the week end.

Now they're making paper from bamboo. The idea was suggested when a great paper maker visited Landbreck and saw Cliff Madden using a seven-cord bamboo as a fishing rod.

It's pretty hard to change the Irish. Joe Fitzpatrick, Blairmore's highly respected police chief, received a letter a few days ago, in which he was addressed as Mr. MacFitzpatrick.

With the approach of the hunting season in B.C., hunters are reported as having sent in a request that all game wardens be shipped out of the districts and assigned some other special duties till the season ends.

The marriage of Edward Woods, of Coleman, to Miss Irene, second daughter of Mr. and Mrs. Myk Surtoris, took place here on Saturday morning last. Rev. Father Harrington officiating. Mr. and Mrs. Woods have taken up residence in Coleman.

A big-game hunting party, comprising Mr. and Mrs. E. Linville, of Burnis; Mr. and Mrs. Gladstone Virtue, of Lethbridge, and Miss Melaine Chardon, of Blairmore, returned on Tuesday from a rather pleasant trip by saddle and packhorse train up through the North Kootenay Pass, south of Blairmore.

Kumor has it that a cheque for \$200 has been issued to Councillor Albert Olson to go to Ottawa, being, recommended by the town's solicitor. It still must be shown that Olson is representing the "unemployed" of Blairmore only. If Olson is representing the district unemployed, the ratepayers of Blairmore have no right to bear the burden.

Mrs. S. H. Kistruck and son, Donald Sinclair, passed through Blairmore this week, by motor, enroute to Saskatoon, where they will visit her daughter Violet, who is married and residing in that city. They stopped off to say hello to some of their old friends here. Mr. and Mrs. Kistruck, former residents of Blairmore, now reside in Victoria, B.C.

Members of the L.O.O.M. and Women of Mooseheart gathered at the home of Mr. and Mrs. Mark Surtoris last night, where greetings to the newlyweds, Mr. and Mrs. Edward Woods, were accompanied by some well chosen and neatly packed wedding presents, chief of which, no doubt, was the beautiful rolling pin. About forty were present. During the evening, games were played and luncheon was served.

Judging by the influx of subscriptions to The Blairmore Enterprise during the past two weeks, there is absolutely no better advertising medium for Pass people right now than the Blairmore Enterprise. People are realizing for their own benefit that we are not red, and that advertising with us appeals to the best element of citizens of The Crown's Nest Pass, or Canada in general. Say that your name is on our list, and patronize business people whose wisdom leads them to patronize us.

Word was received in Coleman last week end of the death of Walter S. Bosworth, former purchasing agent with the International Coal & Coke Company, Ltd., which occurred at Vancouver on August the 31st. He, with his wife, formerly Miss Irwin, left Coleman in 1923 to take up residence at the coast. He was a brother of Vice-President Bosworth, for many years in charge of the C.P.R. steamships department at the coast. He was around sixty years of age, and is survived by his wife.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larks, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, September 10th, the minister in charge.
11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.
7:30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES
Rev. A. S. Partington, B.A., Rector

Services Sunday, September 10th: Sunday school in the hall at 10 a.m. Morning service in the church at 11 o'clock.

On September 17th, the Harvest Festival service will be held in the church at 7:30 p.m.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"The Poison Case," Freeman Wills Crofts; "The Moment of Beauty," Samuel Merwin; "The High Altar," Agnes Edwards Rothery; "A Courageous Marriage," Marguerite Bryant; "Cheat The Boys," Eden Philpotts; "The Able MacLaurins," Margaret Wilson; "The Enchanted Garden," Henry James Forman.

The Library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

LETTERS REVEAL STARVATION EXISTS IN SOVIET RUSSIA

Starvation conditions exist in Russia today, according to letters received by Winnipeg residents from their relatives in the Soviet.

The following is an excerpt from one letter: "When the death of a horse or other domestic animal is reported, those who are able to secure a portion of the body are considered fortunate. People are sacrificing their own children for food. It seems to be a case of survival of the fittest, since those who are unfortunates enough to fall and die by the wayside, because of starvation, are quickly devoured by passersby and wild beasts. Mr. —, whom you no doubt know, murdered both of his children, his stepmother and child and five others. He has smoked the flesh so that it will keep."

The writer, in a centrally located village, explains he and his family have survived so far because of the money received from Canada. Tin dollars had purchased 50 pounds of wheat flour, 40 pounds of ground barley, one pound of sugar and seven five-pound loaves of bread.

"Thousands upon thousands of people are dying for want of food in the village of Wilak, 15 to 20 deaths are reported daily and from 20 to 10 people placed in one grave," he writes.

"Of course, there is plenty of employment, enabling us to earn two or three rubles a day, but the high cost of food makes it impossible to keep alive by work alone."

A mother writes, telling of the death, by starvation, of her husband. "My son and brothers' daughters made the grave. All people in the village are too weak to do anything. There are no funerals now," her letter stated.

"We are living on millet porridge, turnip leaves, lettuce and nightshade bushes. All this is made fine and we make little cakes and cook it. The children have neither clothes nor shoes for winter," she concludes.

—Free Press Prairie Farmer.
Here is something for Sam Paterson and his following to consider.

Truck drivers like their profession because they run into so many interesting people.

Local and General Items

A few from Blairmore took in the sports at Fernie on Labor Day.

Lots of people claim they have no trouble meeting bills. They're meeting them every day, but seldom think of paying them.

Cpl. A. W. Duffin, former assistant commissioner of the Royal Canadian Mounted Police, died at Vancouver on September the 6th. He had been a member of the force for thirty years, and is survived by his wife, one son and one daughter.

Merton Coleman, aged thirty-three, self-confessed slayer of Hettie Ball at Nelson on July 17th, died in the Vancouver general hospital Saturday, presumably from a wound self-inflicted on the night of Miss Ball's death, and which had already cost him his eyesight.

The shooting season for ducks and Hungarian partridge opens noon on September the 15th, the former closing on November the 11th, the latter on November 20th. Two weeks from October 1st will be open for blue grouse, spruce partridge and ptarmigan in this section.

The marriage took place on August 26th, of Miss Pearl Gunthers, of Boston, Mass., to Howard Edmund, second son of Mr. and Mrs. E. Picard. The young couple are spending their honeymoon in the White mountains of New Hampshire, after which they will make their home in Boston.

Mrs. Margaret McKenzie died at Pincher Creek on August the 29th, at the ripe age of 94. She leaves four sons and three daughters, namely: Albert J., Pincher Creek; Fred, Fernie; Herbert J., Waterton; Norman J., Portmouth, Ont.; Mrs. J. Robertson and Mrs. F. W. Willock, Pincher Creek, and Mrs. S. McFarland, Kincardine, Ontario.

EDDIE, THE AD MAN

IF YOU READ THE "ARABIAN NIGHTS" WHEN YOU WERE A KID? REMEMBER ALADDIN AND HIS MAGIC LAMP, WHICH HE HAD ONLY TO RUB TO GET ANYTHING HE WANTED? ROADS, ADVERTISING IS THE MODERN ALADDIN'S LAMP

See the Blairmore Drug Store Ad this week for bargain specials.

New and renewal subscriptions to The Blairmore Enterprise are coming in so rapidly that we were this week obliged to increase our order of premium plates by several hundreds.

The "little red schoolhouse" is not yet extinct. A recent survey shows that 60 per cent of the public school buildings in use today in the United States are of the one-room variety. In Canada the percentage is even higher. And probably the children in them get a pretty fair education. The odds are not wholly in favor of the fine, graded city schools. More depends upon the teacher than upon the school.

Dentist: "Which tooth is it that hurts you, Sam?"
Fullman Porter: "Lower five, sah!"

Local and General Items

The modern home is one in which the switch regulates everything but the children.

Dr. W. S. Galbraith, of Lethbridge, was elected vice-president of the Canadian Medical Council at its annual convention in Ottawa.

Edward, brother of Evan Morgan here, and of George Morgan, Coleman, died at Vancouver. He was a former resident of Burnis, and is survived by his wife, four daughters and two sons, one of whom is married. Evan and George Morgan proceeded to the coast upon receipt of the sad news.

Harvey Bailey, one of the most desperate criminals in the United States, was captured at the end of a wild automobile chase in Oklahoma Monday, four hours after he had made a sensational escape from the Dallas, Texas, county jail. He is accused as leader of the \$200,000 ransom kidnapping of Charles F. Trachel.

The High River Times was recently unofficially charged with kidnapping, in giving a baby born to Mr. and Mrs. Fred Miller to Mr. and Mrs. I. Miller. In the next issue of the paper, the Times restored the baby to its rightful parents, and the charge will not be pressed further. As a matter of fact, no ransom was demanded.

Sydney Sargent, former Blairmore boy, who is now with the Southern Pacific Steamships, plying out of San Francisco, is a visitor with friends here. Syd, in company with Virgil Passmore, hit the roads out of Blairmore some fifteen years ago, when yet of high school age, and decided to hunt for their own living. Both boys have been quite successful.

District News

From Our Own Correspondents

COWLEY HAPPENINGS

Leslie Gilmore, of Blairmore, is stopping with his grandparents, Mr. and Mrs. W. Gilmore, in order to attend the Cowley school.

Miss Jennie Helms, of Coleman, has been re-engaged to teach the Todd Creek school for the coming term.

The constituency conference of the Women's Institute of the Pincher Creek and Rocky Mountain constituency was held at Lundbreck on Thursday afternoon.

Mrs. Cruickshank and two children are on a two weeks' holiday visit with relatives at Salmon Arm, B.C.

Miss Kathleen Elton is spending a vacation with friends at Vancouver and other B.C. points.

After returning from a trip to Vancouver and other points west, Mr. and Mrs. Calendar Fraser say that they are quite satisfied to live in Alberta.

Word has been received of the death of W. H. Connor, of Vrentham. Mr. Connor was well known in these parts, as he lived here for a number of years. We understand he died of cancer.

A room has been provided, where Grade XI will be taught here for the present term by Miss Dorothy Irwin, normal graduate of this year. The Cowley school reopened for the fall term on Tuesday of this week, with Misses Nellie McWilliams and Jean Morrison as teachers.

Mustin Brownie, of Calgary, spent a few days recently visiting friends here.

A baseball tournament, comprising four teams, Cowley, Burnis, Olin Creek and Porcupines, will be held here on September 15th. A dance will be staged in connection with the sports in the L.O.O.F. hall in the evening.

Joe Lamm has returned from a trip around the Olds district. He reports farming conditions good there this year.

Mrs. Ed. Cowin, who recently underwent an operation in Calgary,

is progressing satisfactorily, and is able to be around again.

Mrs. H. Bouthillier and Mrs. R. Littleton were Saturday visitors to Blairmore.

After spending the summer vacation in Blairmore, Edith and Sylvia Murphy have returned home.

Born, to Mr. and Mrs. Albert Cleland, of Tennessee district, on Sunday, September 3rd, a daughter.

Mr. and Mrs. Lionel Peel, of Blairmore, paid a visit to Mr. and Mrs. David Murphy on the North Fork recently.

HILLCREST HAPPENINGS

Mrs. McDougall and daughters, of Hillcrest; Mrs. Holmes, of Bellevue; and Mrs. T. Jones and daughter, of Passburg, returned home after an enjoyable motor trip, visiting Nelson and Creston.

Mr. and Mrs. F. J. Smith returned from Calgary last week.

Mr. and Mrs. Stockdale, of Lethbridge, were visitors at the home of Dr. and Mrs. G. B. Rose last week.

D. G. Mackenzie, of Calgary, was a visitor at the home of Mr. and Mrs. G. E. Cruickshank.

John Stobbs returned to Vancouver Monday, after spending his holidays here.

Mr. and Mrs. W. Rose, Jr., of Watrous, are visiting at the home of Mr. and Mrs. W. Rose, senior, here.

Mr. and Mrs. J. Gorton, senior, returned Saturday from a vacation trip to Vancouver.

Miss Jennie Stobbs, of Vancouver, is visiting with Mr. and Mrs. H. Stobbs here.

Mr. and Mrs. H. Richards, of Hope, B.C., are visiting at the home of Mr. and Mrs. S. Richards.

John Koptichuk, of Lethbridge, was a visitor at the home of Mr. and Mrs. Seaman last week.

Mary Warriner returned to Calgary on Wednesday.

Bessies Davis left last week for Calgary, where she will attend normal school.

The Maple Leaf miners' picnic on Saturday last was largely attended and a huge success.

Mr. and Mrs. John Shevels have moved into their new home here.

D. Hutton is getting ready to move his house into town from its present location near the Frank slide.

Peggy Semple, of Lethbridge, was a visitor here last week.

Tony Macenko is confined in the hospital, suffering from severe injury to his head, following an accident in the mine.

Miss A. Martin entertained a number of friends in honor of Miss M. Warriner on Tuesday evening. Bridge was played, the honors being won by Miss Warriner.

BELLEVUE HAPPENINGS

George Sutherland, of DeWinton, was guest of John Kerr, junior, over the week end. His father was guest of Mr. John Kerr at Passburg.

Mr. and Mrs. Woodhouse, of Fernie, were down for the flower show, guests of Mr. and Mrs. H. Harrison.

Miss M. Graham spent the week end at Waterton Lakes.

Joe Morris left for Calgary on Tuesday morning, where he will enter normal school. A farewell party was given for Joe on Friday night by a number of his friends. Dancing was enjoyed.

Evelyn Price, Joe Strauch and Bill Gallup left for Calgary Monday, to enter normal school.

Mrs. W. Blinston, of Cranbrook, is guest of her daughter, Mrs. C. Johnson.

The dance held in the L.O.O.F. hall on Monday night was very largely attended. The Arcadians supplied music.

George Sutherland broke two of his own records here, the hammer clearing four feet, and the discus throw by three feet. The crowd enjoyed the exhibition immensely. The football tournament resulted in a

Governor-General Visits Boys' Farm

The annual closing exercises of the Boys' Farm and Training School at Shawbridge, Que., were made memorable for the 150 boys of the institution recently when they were honored by the presence of the Earl of Beesborough, Governor-General of Canada, who addressed the school and gave out the prizes. Accompanied by E. W. Beatty, K.C., 25 years' existence of the School that a Governor-General of Canada had taken part in the closing exercises of the institution. His Excellency, addressing the School, stressed character as being of vital importance to success in life.

draw, Bellevue and Hillcrest dividing the prize. After 70 minutes of bang-up ball, which ended 2-2 in the first round, the locals defeated Blairmore 2-1. Hillcrest won from Coleman 3-1.

John Kuback held down the second sack for the Fernie All-Stars in the baseball tournament in that city on Labor Day.

The Maple Leaf miners' picnic on Saturday last was largely attended and a huge success.

Mr. and Mrs. John Shevels have moved into their new home here.

D. Hutton is getting ready to move his house into town from its present location near the Frank slide.

THE RIGHT SPIRIT

The Castle River Club changed its plan for a picnic at their sports field on Labor Day in favor of an outing to the Bellevue flower show and sports, giving free transportation by car and truck to the children. No Red influence there.

GYPSUM DEPOSITS RESULT FROM SUNKEN ISLAND

Montreal, Sept. 5.—The gypsum deposits of New Brunswick, among the purest in the world, are believed to have resulted from the sinking of an inland sea which once existed in and surrounding the Bay of Fundy. This sea probably had a very narrow outlet to what is now the Atlantic Ocean. The subsidence was slow and led in certain parts to the evaporation of sea water, which in turn caused the formation of deposits of gypsum and salt over a large area. The climate then seems to have changed and mud and detritus were carried into the region by rivers. Fish died and became buried in the mud that now forms the shale which characterizes the gypsum areas, where perfectly formed fossilized fish are commonly found today.

Mr. Heslop, of Carstairs, has purchased the stock and fixtures of the Busy Store at Cowley and on Saturday next will set going a mammoth clearing sale. Some real bargains are noted. Bills announcing the sale were turned out at The Enterprise in properly printed form.

FROM THE 4th WORLD SCOUT JAMBOREE

Canada's eight representatives joined the British county contingents in London, as part of the Tapir Tote Troop of South Africans and Rhodesians.

Passing through Germany, the train was repeatedly stopped to receive a Nazi salute from lines of former German Scouts, compelled by Hitler to wear Nazi uniforms. The idea apparently was to spread Nazi souvenir propaganda. The seeming result was to cause the German lads to regret that they too were not on the way to Hungary.

Nazi souvenirs distributed through the train later were collected by a "mopping up" party and turned over to the gendarmes at the Austrian border.

A concerted "rush" of 20,000 Scouts of 33 countries and the British Empire was the climax of the enthusiastic reception given by Powell as Chief Scout of the World.

Fine weather prevailed throughout, and many thousand visitors were at the camp each day; on the first Sunday 100,000.

In spite of Hitler's opposition, Germany was represented by a group of Scouts who were hiking outside of Germany when the edict was issued. They had not heard of the edict "officially."

Two great opening religious services were held. Following Mass and the Blessing of the flags, Bishop Shvoy addressed some 10,000 Roman Catholic Scouts in Hungarian, French, German and English. At a Protestant service for some 12,000 boys, the services and hymns were sung simultaneously in the same four languages.

A notable event was a march past the Scouts themselves in the stands by nearly 50,000 "camp neighbors," town officials, business men, artisans, farmers, women in the national holiday dress. The spectacle made a deep impression.

"Another splendidly successful demonstration of the international friendliness of youth," was one Canadian Scout leader's summary of the gathering.

The person who fishes for compliments rarely gets a bite.

SALE of TIMBER

PUBLIC NOTICE is hereby given that there will be offered for sale by public tender at the office of the Provincial Forester at Coleman, Alberta, at 2 o'clock on Monday afternoon, October 2nd, 1933, the right to cut timber under Sale No. 285 on the following lands:

Sections 17, 20 and 21 in Township 9, Range 4, West of the 5th Meridian.

On these lands there is estimated to be 5,000,000 feet Board Measure of Green Saw Logs suitable for the manufacture of Lumber, but only such timber shall be cut as is marked or otherwise designated.

The sale shall be for one year, but provided operations are commenced in a manner satisfactory to the officers of the Department and payments are being met satisfactorily, extensions to operate may be granted for a second, third, fourth and fifth year, but no further extension shall be granted.

Each bidder will be required to deposit with the officer conducting the sale the sum of \$1500.00 in cash, bank draft or accepted cheque, made payable to the Director of Forestry, Edmonton, Alberta, before being allowed to bid. Agents will be required to file letters of authorization from their principals before bidding. The deposits of the unsuccessful bidders will be returned to them at the conclusion of the sale, and that of the purchaser held as a guarantee deposit to be forfeited in case of failure to comply with the sale conditions or the Forest Reserves Regulations.

Full particulars may be obtained from the Forest Supervisor at Calgary, Alberta, or the Director of Forestry, Edmonton, Alberta.

J. HARVIE,

Deputy Minister.

T. F. BEFFEN,

Director of Forestry.

Department of Lands and Mines, Edmonton, Alberta, August 28th, 1933.

Assistant Commissioner C. Juvett, R.C.M.P., and Mrs. Junett, of Halifax, formerly of Lethbridge and Blairmore, were guests at a delightful dance given recently on the warship H.M.S. Norfolk at Halifax.

WORLD HAPPENINGS
BRIEFLY TOLD

The "Royal Scot" which has visited Chicago World's Fair, will arrive in Canada at Vancouver. It will start its Dominion tour October 26.

Terms of a Franco-Russian commercial agreement for an interchange of products between the two countries was reported reached recently, following long negotiations.

Falling asleep in his father's grain shed at Carvel, Alta., Mike Shaiged aged three years, was instantly killed when his father, not noticing the sleeping boy, ran a binder over him.

Archibald C. Manberg, 64, former Canadian lumber trader, commissioner in London, England, and prominent in Canadian lumber circles, died in hospital at Toronto, after a long illness.

The third plane bought by the government of Saskatchewan from the Royal Canadian Air Force this summer has been brought from Ottawa with Flight-Lieutenant F. M. Carter, chief pilot of the Saskatchewan flying service, at the controls.

Boys are better cooks than girls competing at the Canadian National exhibition, Toronto. Five classes—bread, rolls and buns, baking powder biscuits, ginger-bread and cookies—saw boys win nine places and girls eight in the 17 awards.

Moving of freight across Fitzgerald-Fort Smith 16-mile portage by aeroplane now is under way, according to reports received from the north. The freight is placed aboard the "planes" at Fitzgerald and flown to Fort Smith at the rate of one ton per hour.

Canada's new conversion loan may possibly be launched around Oct. 1 instead of Oct. 15, the date previously under consideration, according to well-informed circles. The success of the Canadian loan in London and the improvement generally in the money market are given as reasons for moving the date ahead.

Do Not Like Restrictions

Maximum Hours Mean Nothing To Men Doing Creative Work

An American service organization advises its clients that it has signed President Roosevelt's agreement regarding minimum wages and maximum hours and has certified that the conditions are already operative in the organization "except as to staff executives whose hours of labor cannot be limited."

Laws can be passed to put a definite limit on the number of hours of physical labor any person may be asked to do in one week. Laws can be passed to fix minimum hours for routine work of "white collar" subordinates who have no ambition ever to be more than subordinates. But there is no law that human ingenuity can devise to fix a maximum working week for brains. A man might come to his office at 10 o'clock and leave at 4 o'clock and still be the hardest worker in his organization for his mind would probably be concentrated on his business problems for most of the balance of the day.

The men who are really doing the creative work of industry ask nothing but the privilege of working as hard as they like for as long as they like.—Financial Post.

Prefer Staying On Ship

Fort of Churchill Has No Attraction For Sailors

While skippers of the deep water vessels who have arrived at Churchill this season say they are delighted with prospects of business in and out of the port, the crews turn a cold eye on the construction camps and the townsite.

They claim it is the duldest of all the 57 varieties of ports they visit in the course of a year or two. Sailors coming ashore, for the most part, play an odd game of English billiards, sip an occasional orange, and purchase a few picture post cards of Eskimos.

Then singing for the "wine, women and song" of other harbor-fronts, they crunch their way over the gravel heaps and go aboard their various ships.

Railway Accidents In Canada
A total of 152 railway accidents, with 16 persons killed and 157 injured occurred during the month of June in Canada, according to a statement issued by the board of railway commissioners. Of the 152 accidents, 15 took place at highway crossings, 11 occurring at unprotected crossings. Ontario led the provinces with seven highway crossing accidents.

Giving good advice is all right—it we give it to ourselves.

W. N. T. 2010

Gas From Coal

Huge Industry Being Established, An Industry Which Will Furnish Much Employment

One of the most striking of all the developments that have recently taken place in Great Britain is that of the production of petrol from coal. A week or so ago Prime Minister Ramsay MacDonald announced in the House of Commons that it had been decided to place a preference of fourpence a gallon on petrol so produced, and this was immediately followed by the public statement of the Imperial Chemical Industries that the construction of a plant to cost \$35,000,000 at Billingham-on-Tees would be proceeded with at once.

This plant will produce 70,000,000 gallons of petrol a year. It will provide employment for 2,000 workers, and will absorb the mine production of three thousand miners, that is 450,000 tons of coal a year.

Another plant is to be erected, probably at Doncaster which will give 20,000,000 gallons, giving work to 10,000 miners, and other plants are to be built throughout the coalfields including South Wales, Northumberland, Lancashire, Forest and Dean and possibly Kent. As soon as construction begins, work for 7,000 will be provided, it is estimated. Further the iron and steel industries will be immensely stimulated, and seven thousand more men will be required in the near future.

For years scientists have been engaged in endeavoring to perfect the process of obtaining petrol from coal. It has now reached the commercial stage and it is reckoned that this high quality can be produced for seven pence per gallon. But the preliminary experiments have been costly, the expenditures on them being estimated at \$250,000,000.

This great new industry is proving a veritable stimulus to Great Britain in its efforts to establish trade recovery. The benefits that will be derived from it by the coal industry and others are hardly to be imagined. To the coal miners, who have been such heavy sufferers by the decline in trade, it will be a godsend.—Regina Daily Star.

Recipes For This Week

(By Betty Barclay)

PARSNIP SOUFFLE

Cook four medium-size parsnips in boiling water until tender. Remove skins and rub through a colander. Mix together one teaspoon salt, one-third teaspoon pepper, one teaspoon sugar. Add to the parsnips together with one tablespoon butter. Melt two tablespoons of butter in a saucepan, stirring in two tablespoons flour and one cup milk. When the mixture is thick and smooth add to the parsnips, together with the yolk of two well-beaten eggs. Beat the white of the eggs until stiff and fold into the mixture. Place in a well-buttered baking dish and bake for 25 minutes in a moderate oven. Remove and serve immediately.

BLUEBERRY AND APPLE CONSERVE

2 cups blueberries.
2 cups tart apples, diced.
3 cups sugar.
½ cup nut meats, chopped.
Juice of 1 lemon, grated.
Rind of one-half lemon.
Combine all the ingredients except the nut meats Cook until the mixture is thick and clear. Add the nut meats just before taking from the fire. Pour into hot, clean glasses. Seal tight.

Bootblack Left Fortune

Accumulated Large Estate In Last Thirty-Five Years

Pietro A. Terardi, of Elmford, who accumulated a fortune shining shoes, left an estate of \$150,815 gross and \$121,091 net, according to a transfer tax appraisal. Terardi, who died on July 7, 1932, owned the bootblack concessions in the Grand Central Terminal in New York for years. A native of Naples, he came to America when he was 15 years old and started his career as a bootblack on the streets. Only 47 of his estate was in stocks and bonds. He had \$98,900 in New York and Westchester real estate, 11 bank accounts totaling \$21,000 and mortgages totalling \$7,289.

Rewards Not So Meagre

Reading that when Henry Travis of Pullman, Wash., won a local "best wheat" contest, fellow grain growers presented him with three gallons of ice cream, Junior is inclined to think that probably the rewards of agriculture are not so meagre as they recently have been pictured.

Poland has placed a virtual moratorium on agricultural debts.

By Ruth Rogers

SNAPPY, WEARABLE AND CHIC AND IT'S SO EASILY MADE

Develop this modish dress in thin plain rough woolen weave in grey, topped by a tweedy striped grey woolen. You'll love it because it has so much dash and chic.

Plain or printed silks are also suitable. It lovely in grey crinkly crepe silk with short puffed sleeves as in the small view.

Style No. 680 is designed in sizes 14, 16, 18, 20, 22, 24, 26, 28 and 40 inches bust.

Size 16 requires 2½ yards of 35-inch material for skirt and collar with 1½ yards of 35-inch material for waist.

Price of pattern 20 cents in stamps or coin (coin in preference). Wrap cut carefully.

Destroying Flower Bulbs

Holland Finds They Are Drug On Market At Present

A bulb-destruction week has been held in the Haarlem district particularly in and Holland generally. The object is the same as that of the Brazilians in burning their coffee to reduce the supply and increase prices. The famous Dutch bulbs, once the pride of the nation, are now a drug on the market, after having made fortunes for many growers. In the Haarlem region they were brought in in carloads and thrown into garbage cans and refuse piles. Hundreds of thousands of tulips, hyacinths and narcissuses were destroyed in this manner. Destruction week was "declared" by the "adjustment committee for rehabilitation of the industry."

Vacuum cleaners are replacing the bucket and mop as deck cleaners on British war vessels.

THE RACE.—By Chase, in the New Orleans "Item."

Advocates Change In
Form Of Education

Hon. N. D. Baker Urges Preparation For Actual Conditions Of Life

Youth, educated to think the world is waiting for him with open arms and discovering there is no job, is one of the most tragic things in our life today. Hon. Newton D. Baker, former Secretary of War and chairman of the American group who attended the Institute of Pacific Relations Conference said.

The entire capitalistic system of the world must be readjusted before the ills now afflicting it can be cured and before the problem of unemployment can be solved, Mr. Baker continued.

Two paramount factors must be faced in solving mankind's problem, said Baker. The first is the sound education of youth, not along classical lines but with regard to the life which the youth must face when school and college days are ended. To attain this objective, Mr. Baker stated all the processes attendant upon modern education must be re-studied and new systems evolved.

Second, there must be adult education. What is usually defined as education must be continued so that, ultimately, there may be no unemployed men and women. There must be a continuing process of education throughout life, Mr. Baker added. "More and more world government is being influenced by public opinion," Mr. Baker said, "and it is highly desirable the knowledge and character of our adult people be improved. People are learning the most interesting and most valuable method of utilizing their increasing leisure in this continuation of their education."

One Contributing Factor

Decrease In Farm Horses Helped Create Economic Situation

The United States Census Bureau points out that land formerly used to produce horse feed is now being utilized for other purposes, thereby increasing the acreage of cotton, wheat and corn. In a pamphlet entitled "The Farm Horse," Z. R. Pettit invites farmers to turn their attention to raising horses and mules as a good business proposition in the present economic situation.

"The decline of 9,313,696 in the number of farm horses and mules in the last decade is one of the plain contributing factors of the present economic situation," he writes. "At least 18,000,000 acres of crop-land, formerly required to produce horse feed, have been put into other crops in the last decade. This added acreage, augmented by the release of that part of 3,000,000 acres of plowable pasture formerly devoted to horses, has resulted in surpluses of various crops and livestock; in many crops the surpluses have resulted in decreased prices for these farm products, greatly lowering farm purchasing power, and the reduction in the latter has affected the entire country."

The same thing may apply, though not proportionately, in Canada. The number of horses on farms in this country was shown by the census to be 3,115,582, as against 3,451,702 in 1921. The decrease was 336,170 or 9.74 per cent. In Ontario the drop was 174,717 per cent. The average number of horses on farms reporting any was 5.3 in 1931, as compared with 5.7 ten years before.—Woodstock Sentinel-Review.

Clara (a dentist's daughter): "Well, dear, have you asked dad what he had yet?"

Henry (very bashful):—No. Every time I step into his office I lose courage. Today I allowed him to pull another tooth."

One ounce of tungsten is used to make 17½ miles of wire, three thousandths of an inch thick, for three-volt electric lamps.

SUNDAY SCHOOL LESSON

SEPTEMBER 10

JONATHAN

Golden Text: "A friend loveth at all times."—Proverbs 17:17.
Lesson: 1 Samuel, chapters 18-20.
Devotional Reading: Romans 12:1-5, 9, 10.

Explanations and Comments

The Covenant Between Jonathan and David, 18:1-4.—Jonathan, Saul's son, had watched David's brave deed, and he was present when Abner, the captain of the army, brought David to the king's presence. While Saul talked with David, Jonathan's heart went out to him; his soul was knit with the soul of David, and Jonathan loved him as his own soul.

As the devoted friendship of the two young men is disclosed in the narrative, we marvel at the disinterestedness of Jonathan. David's love for Jonathan did not conflict with his own interests, but Jonathan's interests were all against his love for David. Nothing could better express the attitude of Jonathan's mind, Mr. David, "Jonathan stripped himself of the robe that was upon him, and gave it to David, and his bow, and to his girdle." From beginning to end, the love of Jonathan for David was a disinterested, a disinterested, only the noblest nature can love one who is a rival and whose success means one's own defeat.

"As one lamp lights another, nor grows less, so nobleness enkindleth nobleness."—Lowell.

"Blessed are they who have the gift of making friends, for it is one of God's best gifts. It involves many things, but above all, the power of going out of one's self, and appreciating whatever is noble and loving in another."—Thomas Hughes.

Biologist Speaks On Heredity

Education Is Also Needed To Produce Brilliant Men

The children of brilliant parents will never be as brilliant as their parents, but they will be above the average," said D. Ward Cutler, the biologist, at the British Social Hygiene Council summer school at Oxford.

"I do not believe that education will ever produce a great scientist, historian, or literary man, unless the necessary characteristics are born in him."

"Nor do I believe that heredity can ever produce any of these men without the right environment and education."

"Plenty of love and cod liver oil," was urged by Hon. Mrs. E. Franklin, as a better dictum than much of so-called "modern" training of children, at the World Federation of Education Associations in Dublin.

"With all our scientific planning," she said, "the child's heart still leaps when he beholds a rainbow in the sky. But this part of the child is often starved."

Symbol Of Friendship

Canadian Institute Of International Affairs Receives Picture From Japan

Symbol of Japanese friendship toward Canada, a handsome picture by a noted Japanese artist has been presented to the Canadian Institute of International Affairs by the Japanese group attending the Pacific Relations Conference. The picture was presented to the Canadian group by Dr. Inazo Nitobe, leader of the Japanese group and accepted by E. J. Tarr, Winnipeg, Sir Robert Falconer, Toronto, and W. M. Birks, Montreal.

The handsome-framed picture is about 3½ feet by 3 feet in size and done in silk which, it is said, will endure almost 1,000 years. The painting was done by Juppō Araki, one of Japan's great artists, especially as a gift to Canada.

New Trade Envoy

A new trade commissioner is to be appointed to represent Canada in Britain, it has been announced at Ottawa. His special duties will be to develop trade in Canadian fruit in the United Kingdom and he will receive an initial salary of \$4,380 and full living allowance. The department of trade and commerce expects to secure an expert in Canadian fruit growing for the position.

Many Apply For Job

Advertising for a girl to assist in his St. Catharine St. office, salary seven dollars a week, John H. Baxter, contractor of Montreal, received 460 replies from men and women. Applicants included former office and factory managers, members of the architectural and legal professions and graduates of the faculties of arts, science and engineering of McGill and Toronto Universities.

Linking World
By 'Phone

Paradise Building In London Will Serve Over 25,000,000 Subscribers

Paradise building, in the city of London, is to be the centre of a gigantic spider's web of world-wide communications, equipped to serve over 32,000,000 telephone subscribers.

When completed, its 11 spacious storeys, covering a superficial floor area of 109,000 square feet, will be the most scientifically controlled building in Europe.

Many scientific devices to assist the operators and safeguard subscribers have been added. These include:

Special automatic timing apparatus which checks conversation periods on the continental and inland trunk services to a fraction of a second.

Two stop-watches attached to the exchange panels used for auto telephone check calls to one-fifth of a second.

White and green lamps signify to the operator, by pressing a button, the state of traffic at the continental exchange. This saves time by advising subscribers of the length of delay.

Small spot light systems reveal side circuits associated with outgoing radio telephones or inland trunks.

Revolutionary changes are to be made in certain services to be brought into use.

Chief among these will be the "extension on demand" to practically the whole of the inland long distance routes from London.

Service to be housed at Paradise house will include: A new toll exchange to serve 1,000,000 subscribers in and around London; city and central exchanges to be transferred from Carter Lane, E.C., the international switchboard at Carter Lane to be enlarged.

Secret Is Valuable

How Soft-Mouthed Creatures Tunnel Hardest Wood Problem For Scientists

The following article by W. Beach Thomas, appeared in the London Spectator:

Will our men of science who concern themselves with natural history settle the following point? How do caterpillars and other rather soft-mouthed creatures tunnel the hardest wood? Is their secret mechanical or chemical? I saw this week a hole of singularly hard English oak of considerable age converted almost into a caterpillar's tunnel.

The hole was in a large and powerful and of that warning yellow coloration which suggests venom. But the tissue even of the mouth is soft, and a priori, it looks impossible that it should tunnel a substance which turns hard iron nails. It is a natural inference that the caterpillar ejects some chemical to help it. If so, it might be of no little importance to discover exactly what this wonderful stuff which may make cellulose soft and palatable. Did not Mr. Haldane prognosticate this feat as one of the final revolutionary developments of the future.

Lens Made In Layers

British Opticians Have Perfected Unbreakable Glass For Spectacles

The great fear of spectacles being broken while worn and causing serious injury to the wearer is to be removed by the perfection of long research by British opticians.

A lens made in layers, which, said the manufacturer to a newspaper representative, did not break when hit with a hammer, has been perfected.

It was tested for 500 hours with ultra-violet rays; boiled up to 500 degrees Fahrenheit, and baked in an oven.

After that it was frozen in a refrigerator.

Trying Out New Method

An electric "anesthetic" is being tried out in the slaughter house at Milan, Italy. The animal to be killed is subjected to a 70-volt current, which is said to make him insensible to pain for a time long enough to permit scientific slaughter. Until it can be fully determined whether the electricity has a harmful effect on the meat, the new system will remain in an experimental stage. Technical reasons forbid use of a current quantity enough to produce instant death.

Artificially dried hay contains practically 100 per cent. of the nutritive value of the original grass, vitamins included, and cows fed on it produce milk and cream of the same quality as produced when they are eating summer grass.

Aberdeen, Scotland, faces a water shortage.

ST. CHARLES MILK
UNSWEETENED EVAPORATED

OCCASIONAL WIFE

By **EDNA ROBB WEBSTER**
Author of "Joretta," "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt, young and beautiful, falls in love with Peter Anson, a low student in an art school. She is the adopted daughter of a wealthy family, and he is a poor, struggling sculptor. On their first date Peter spends most of his money to show Camilla a good time, and then decides he must give her up because he cannot stand the financial pace. A chance meeting, however, proves a way for another date. This time they walk in the park.

(Now Go On With The Story.)

CHAPTER VII.

"You think I am going to art school for the novelty of having something to do," Camilla began, as they walked through the park, "and that I haven't a serious thought in my head. You think I am a girl with a fortune and not an idea of earning a penny of my own. That's the girl you think I am. But you're wrong. My classes at National are only a part of my training to become a commercial artist. That means I want to work, and have to work. I'm not dabbling with art for a pastime, as you have been thinking. What's more, I'm not even planning for a distant future with the possibility of success as a famous artist who creates beautiful and lasting things. I intend to commercialize whatever talent I have just as soon as possible. Covers for magazines that will be glanced at and tossed aside, illustrations for stories that will be read and forgotten, fashions that are whims for a day, glaring advertisements for linoleum, tooth paste and whatnot. In fact, I'll do anything I have a chance to try. Now you know." She stopped abruptly and the soft silence of the night closed in about them isolating them.

Finally Peter said, "Know what? I'm glad to know that you are ambitious to do something for yourself, and all that, but what's that got to do with—my forgetting you and your being blue?"

"Because I'm just a poor little rich girl who has to earn my own living after the first of September, next."

Peter was puzzled. "But you are the Hoyt girl, aren't you? I supposed you were only dabbling in art for amusement. Are you really serious?"

"Just as serious as my situation. I really am a little frightened, Mr. Anson—about earning my living, I mean. Sometimes I get to wondering how I could be of any service that would be worth money to people."

"But your fortune."

"I have no fortune. And my name is not Hoyt, really."

He shook his head in bewilderment. "I'm still floundering."

RHEUMATISM GOT HIM

80-years-old Pianist is Relieved by Kruschen

Although old age has not yet kept this man from his occupation as a pianist, rheumatism did threaten to do so recently.

"Two years ago," he writes, "I was suddenly taken with rheumatism, all down my left arm. I tried many things—all to no purpose. I then commenced taking a half-teaspoonful of Kruschen Salts every morning, and soon felt benefit. My arm, which was painful and nearly useless, was painless and playing many more pieces than I am now. I am just entering my 80th year, and am in good health."—G.L.A.

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also cause the eliminating organs to proper working order, so prevent constipation, thereby checking the further formation of uric acid and other body poisons which undermine the health.

W. N. U. 2010

"I don't mind telling you all about it, if you still care to listen."

"I'm very anxious to know."

Camilla turned on the bench facing him, and began earnestly, like a child reciting a story. "To begin at the beginning, I am one of a family of nine children—the middle one. My real name is Lorenz. But I didn't know that until three years ago, when I had been riding in the clouds for fourteen years and suddenly had to come down to earth in a parachute. I almost got tangled up in the strings and things, but I finally landed feet first and looked around to see where I was. It wasn't such a beautiful place as I had left, either."

"But how did you get up in the clouds in the first place?" Peter interrupted, amused with her quaint metaphor.

"Oh yes, I'm getting ahead of my story. I went up when I was four years old. It was this way. My people had come to America before I was born, and they hadn't done so well here at that time, it seems. Anyway, once when I was four years old, a volunteer social relief worker came to our house to tell mother how to put more money in the soup kettle so that she could feed nine mouths with half rations. Of course, my mother having lived in southern Europe, on half rations most of the time, and the wealthy Mrs. Hoyt never having known how soup was made—she could do that. Anyway, it seems that I was quite a pretty child—in fact, a beautiful child."

"I don't doubt that," he interrupted again.

Camilla dismissed that with a gesture of impatience. "—and the rich lady who had no children of her own was so captivated by me that she

titles, industrial fortunes, social leaders. I despised it all. At first, I announced that I would leave them and be independent. But I learned that it was legally arranged for me to live as Camilla Hoyt until I was twenty-five. So I decided to make the best of it by training myself, while I had the chance, to make my living after. Of course, I had to defy their wishes, by studying to be self-supporting instead of angling to be the mistress of a fortune. That's why I have the blues," she concluded suddenly. "I'm

cluttered, industrial fortunes, social leaders. I despised it all. At first, I announced that I would leave them and be independent. But I learned that it was legally arranged for me to live as Camilla Hoyt until I was twenty-five. So I decided to make the best of it by training myself, while I had the chance, to make my living after. Of course, I had to defy their wishes, by studying to be self-supporting instead of angling to be the mistress of a fortune. That's why I have the blues," she concluded suddenly. "I'm

"The Blues Are All Gone."

came to see us again and wanted to take me home. The attraction was mutual. I liked the grand lady and wanted to go home with her when she suggested it. My parents objected at first, but she finally persuaded them to agree. It was my mother who did the objecting, it being my father's policy that there were plenty more where I came from and he already had more mouths than he could feed, anyway. Mrs. Hoyt was to adopt me until I became of age. She promised to do everything for me that money could do: private schools, social advantages, travel and special education. I would be her daughter until I was twenty-one. Then I should decide for myself what I wished to do. But I would not be an heir to the Hoyt estate."

"But why not?" asked Peter. "Adopted children usually inherit estates from foster parents, especially if they have no direct heirs."

Camilla gestured with the elegance of her Latin heritage. "Don't ask me riddles. Why does a fish swim? Who knows? This was some whim of an idea, no doubt. Perhaps they feared I should waste my inheritance on my large family, or they would take it away from me. As I said, I rode in the clouds for years. You can imagine what it was like for me—governments, imported fancies, constant attention, people telling me how pretty I was, and all the rest. When I was eighteen, I made my debut. Soon afterward, I learned the facts. Naturally, it was a shock. Then I learned that my foster mother was ambitious for me to marry wealthy, which would solve my problem very nicely. Prospects were offered to me continually, always with the deceitful ruse that I was the Hoyt heiress, to double the attraction. Foreign

cluttered, industrial fortunes, social leaders. I despised it all. At first, I announced that I would leave them and be independent. But I learned that it was legally arranged for me to live as Camilla Hoyt until I was twenty-five. So I decided to make the best of it by training myself, while I had the chance, to make my living after. Of course, I had to defy their wishes, by studying to be self-supporting instead of angling to be the mistress of a fortune. That's why I have the blues," she concluded suddenly. "I'm

Freighter Again in Service

German Boat Was Sunk By Russians During War

After spending eight years on the bottom of the Baltic Sea and still using the same engines and boilers that were put into her at Hauling 51 years ago, the "Leonore," a German freighter registered at 922 tons, shows the big boats "how it's done."

The little freighter sailed from Montreal recently on her way to Holland from Chicago. She had carried a cargo from a Baltic port to Green Bay, on Lake Michigan, thus gaining the distinction of being the first ship in 22 years to make the run from a European port to Chicago.

The "Leonore" has had many adventures, but the most serious one came during the war when she was docked in the port of Lihau, now owned by Lithuania. It was in 1918 and the Russians had decided to block the entrance of the harbor by sinking a number of ships. Of the 40 ships sent to the bottom as a protection against German subs, the "Leonore" was one, and there she lay for eight long years until in 1924 it was decided to clear the harbor and the sunken vessels were refloated.

Steel Mill Receives Order

Big Order For Nails For British Market First In 14 Years

Announcement was made that the Dominion Steel and Coal Corporation had received an order for 1,000 tons of nails for the British market, first of its kind in 14 years.

The nail mill at the corporation's Sydney plant will begin production on the order immediately, employing about 130 men. The plant has not filled out a British nail order since 1919.

Tenth Vacancy in Senate

Ten Vacant Seats in Upper House Will Have To Be Filled

The death of Senator G. D. Robertson created the tenth vacancy in the Upper House.

Of this number, three are in Ontario, two in Saskatchewan, two in Quebec, two in New Brunswick and one in Nova Scotia. That present standing of the parties in the senate, inclusive of the 10 vacancies which will have to be filled, are 40 for the government, and 40 for the Liberals.

"Repatriated Celery"

The experiment by which Canadian-grown celery plants were matured in Bermuda and brought back to Canada in Canadian National ships for the spring market, has been successful. Some marketers have called the product "repatriated celery," Bermuda and British Celery had been known to be known as Canada's winter garden and tropical fruitland.

Canada imported nearly 3,000,000 pounds of peanuts from the United States between January 1 to August 1.

More than 19,925,000,000 cigarettes were made in China in the first half of 1932.

When Your Daughter Comes to Womanhood

Give Her Lydia E. Pinkham's Vegetable Compound

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy girl and mother she will thank you.

A glass radio-phonograph is being displayed in Glasgow, Scotland.

★ ★ AN EASY WAY OUT OF A MEAN JOB ★ ★

Stains flush off with Gillett's Lye . . .

ONCE a week just pour Gillett's Lye—full strength—down your toilet bowls and drains. It removes all stubborn stains without hard scrubbing and rubbing. Cannot harm enamel, is non-injurious to plumbing. Kills germs and banishes odors, too.

Keep a solution of Gillett's Pure Flake Lye on hand for all your household cleaning. One teaspoonful dissolved in a quart of cold water

makes a safe, economical cleanser. Use it for greasy pots and pans, the kitchen floor, sinks and bathtubs.

And be sure to get the genuine Gillett's Pure Flake Lye. Order a tin today. Ask for it by name at your grocer's.

GILLETT'S LYE

Free Booklet

The Gillett's Lye Booklet tells you how to avoid drudgery by using this powerful cleanser and disinfectant for dozens of heavy cleaning jobs.

Also contains full directions for soap making, disinfecting and other uses on the farm. Ask for free copy, Standard Brands Limited, Fraser Avenue & Liberty Street, Toronto, Ontario.

Never dissolve lye in hot water. The action of the lye itself heats the water.

EATS' DIRT

Little Helps For This Week

"They go from strength to strength."—Psalm 74:7.

"First the blade, then the ear, then the full corn in the ear."—Mark 4:28.

Build these more stately mansions on my soul.

As the swift seasons roll; Leave thy low-voiced psalm; Let each new temple nobler than the last.

Shut thee from heaven with a dome more vast.

Till thou dost lengthen as free. Leaving thine outgrowth slain by life's unrelenting sea.

—O. W. Holmes.

High hearts are not long without hearing some word of comfort and gladness of God, even in their dreams, and soon they are observed to break up their camp of ease and start on some new fresh march of faithful service. And looking higher still we find those who never wait until their moral work accumulates who do the good only to see the better, and see the better only to achieve it, who are faithful for remorse, too earnest for repose, whose worship is action, and whose action is ceaseless aspiration.

—J. Martineau.

Programme Of Works

Saskatchewan Relief Recipients May Have Opportunity To Work Out

A programme of works sponsored by town and village councils to work out the indebtedness of relief recipients will shortly be proposed by the Saskatchewan Relief Commission according to unofficial information.

If the scheme meets with the approval of the town and village councils, it will provide for the inauguration of individual programmes of works to be started after the harvest, providing for the improvement of streets, beautification of public grounds and other community undertakings of various kinds.

Such a scheme would involve no expenditures on the part of the commission, it is understood, but rather would afford an opportunity for relief recipients working out their present indebtedness to the commission by virtue of 1931 and 1932 advances.

Not To Be Barbed At

Canada's imports of hot dogs are not to be barbed at. According to the Bureau of Statistics, the Dominion imported \$66,923 worth of wiener wrappers during June, an increase of \$54,668 over June, 1932. During the 12 months ending in June the total was \$421,000, compared with \$375,000 in the previous 12 months.

Chinese Trainmen Executed

Three trainmen whose alleged carelessness resulted in a wreck between Kluang and Nanchang that caused the death of 50 persons to be killed or hurt were executed by Chinese authorities. The wreck occurred when the train jumped the track. Of the 500 passengers, 200 were military cadets.

War risk insurance rates have been increased in China.

Milne's Meat Market
Jas. Milne, Prop. — Phone 46 — Blairmore, Alberta

Robert Gray and party of friends motored to Calgary for the week end.

The Crows' Nest Pass Coal Co. are reported prospecting a new coal seam along Alexander Creek.

The Crows' Nest Pass Coal Company will supply a ten-thousand-ton coal order from Michel for the T. Eaton Co., Winnipeg.

Alberta's deficit for the past fiscal year, as reported by Hon. George Headley, is \$2,107,521, compared with \$5,153,052 for previous fiscal period, or a reduction in operation costs of \$3,000,000.

Miss Annie Yanota has returned from a holiday visit with friends at Banff.

On Saturday next we will celebrate the twenty-fifth anniversary of our landing in Blairmore.

Mrs. Angelo Orlando (nee Barbara Filiponi) and children are down from Drumheller district on a visit to friends and relatives.

The Fernie school board has decided to continue operation of the West Fernie school. Three replacements have been made to the Fernie high school teaching staff, Miss Maltman securing one of the positions.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in 10 or 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Fred McKenzie was down from Fernie on Tuesday.

There is no such thing as idle gossip. Gossip is always most industrious.

Some local dogs have tails so short that you really can't tell when they're happy.

Mr. C. Hishop, of Carstairs, was a visitor on Sunday last with Mr. and Mrs. Macalister.

T. H. and Mrs. Duncan, of the Greenhill hotel, have been enjoying a brief vacation in British Columbia.

Gar Wood still retains the Harmsworth speed-boat trophy, Hubert Scott-Paine's challenger losing by only a few seconds.

Mrs. James R. Warner has been confined to her home for several days, as the result of a fall down a stairway last week end.

The C.P.R. have reduced their express rates almost in half on eggs, butter and meats from points between Lethbridge and Landbreck to Fernie.

Bruno Rinaldi, Cecil Johnson, George and Harry Lord, Harold McPhail, Fred Holmes, and Alex., Alfred and Tom McKay climbed Crows' Nest Mountain on Sunday last.

Many a dime realized through the sale of "benefit tickets" on Labor Day found its way to the beer glass. That's the class of benefit many people are patronizing.

Following a two-months' holiday, all local societies have resumed their activities. Members of Livingstone Lodge K. of P., are reminded of their meeting tomorrow night.

A Chicago couple, applying for divorce, testified that for ten days they had communicated by messages written on the tablecloth and letters picked from the vegetable soup.

A minister says it is a sin to play golf on Sundays. Well, if he saw some of the would-be golfers at it here last Sunday, he would say it was a sin to play it that way, even on a week day.

Brewster busses passed through Blairmore on Friday evening last with twenty-five boy tourists, making the round trip from Banff. Oversized whiskers constituted the bulk of their baggage.

The following item appeared in an Alberta newspaper: The ladies of the Helping Hand Society enjoyed a "swap social" on Friday evening. Everybody brought something they didn't need. Many of the ladies brought their husbands.

A local red fanatic was overheard remark the other day: "Boys, don't forget it; we got the capitalists on the run now!" And the joke of it is that the capitalists are not losing any sleep over people of the calibre of that same guy.

Rev. Father Dunbar has taken over the duties of parish priest at Holy Ghost church, Coleman, in succession to Rev. Father Specknaier, moved to the Okanagan district. Father Dunbar comes from Calgary, but originally from Ontario.

Mr. and Mrs. J. Nash, of Coleman, announce the marriage of their daughter, Phyllis Victoria, to Kenneth R. Blain, son of Mr. and Mrs. R. Blain, of Vancouver. The ceremony was performed by Rev. J. Wood at Bellevue on August the 19th.

The members of Greenhill Temple of Pythian Sisters will hold a whist drive on the night of Friday, September the 13th, at which a valuable door prize will be awarded. Whist at 8. No dancing. Admission 35 cents. Splendid whist prizes. Everybody welcome.

The interior of the Pincher Creek post office is being decorated. Next?

Don Lewis took premier honors in the golf tourney at Lethbridge on Sunday last.

Angelo Altomare and Angelo Rizzuto, of Fernie, are reported to have taken over a hotel at Winnipeg.

Miss Mary Sartoris was down from Calgary on Saturday last, to attend the marriage of her sister Irene.

A lecturer the other day said that woman makes her mark on man. Yes, either with the lipstick or the rolling pin.

Peter Veregin, Doukhobor leader, states that his people are satisfied to remain in Canada and had faith in Canada's people and constitution.

Miss Evelyn Olivier, daughter of Dr. and Mrs. Olivier, of Creston, will spend the winter months with Dr. and Mrs. E. J. Anderson at Calgary.

Mrs. Joseph Farrell and son arrived from Lethbridge the early part of the week and are guests for a few weeks with Magistrate and Mrs. Gresham.

Councillor Albert Olsen left last week to confer with R. B. Bennett at Ottawa on relief programmes. Mr. Bennett has already admitted he is willing to learn.

Mr. and Mrs. H. T. Halliwell, of the Coleman Journal, are spending this week in Vancouver, attending the sessions of the Canadian Weekly Newspapers Association.

The regular meeting of Crows' Nest Chapter I.O.O.F., will be held at the home of Mrs. J. Patterson on Monday, September 11th, at 7.30 p.m. All members are asked to attend.

Mr. and Mrs. C. B. Barrell, of the Yale hotel, Calgary, were visitors with relatives and friends here during the week. They returned to Calgary by this afternoon's train.

Mr. and Mrs. W. R. Rusch, of Portland, Oregon, are visiting with Mrs. Rusch's relatives here this week. Mrs. Rusch was formerly Miss Lily Bouthiller, daughter of Mr. and Mrs. Charles Bouthiller, of Blairmore.

FOR SALE—Hens 35 cents each; 100-chick brooder and wire netting. Apply S. Turner.

WANTED TO PURCHASE—A Combination Heater and Cooler. Must be reasonable in price and in good condition. Apply STEPHEN DAVIES, Hillcrest Mines. —3t.

DR. A. E. SHORE, of Drs. Gunn, Hapkeny & Shore, Calgary, will be at the office of Dr. Stewart, Blairmore, on Sat., September 16th, after 2.00 p.m. Any one wishing to consult him with regard to Eye, Ear, Nose or Throat conditions, or to be fitted with glasses, please make appointments with Dr. Stewart.
